The Brussels I bis Regulation, together with other instruments, forms a core of European civil procedural law. Events in this series serve to promote dialogue among Member States and with third countries, thereby strengthening and improving the integration and efficiency of European legal instruments.
The online conference on 03 December 2026 will first focus on five country Reports from Greece, Romania, Slovakia, Lithuania and Latvia. Then, we will hear a report from work currently performed by the Expert Group on the Brussels I bis Regulation.
The event is aimed at academics and practitioners alike. We look forward to a lively exchange.
