

UK Government Opts In to the Revision of the Brussels I Regulation

The UK has written to the Hungarian Presidency and European Commission, confirming its intention to opt in to the revised Brussels I Regulation (see our [focus group on the Green Paper and Report](#)) and participate in the negotiations. The relevant Ministerial Statements were made in the Houses of [Commons](#) and [Lords](#) on 5th April 2011. You can also read the [general debate](#) that was had in the House of Commons by the European Committee. Unsurprising news, perhaps, but news all the same.

[Many thanks to Jean McMahon at the Ministry of Justice.]
