

New Book on European Insolvency Law

The [evaluation on the application of the European Insolvency Regulation in the 27 Member States](#) conducted by the Universities of Heidelberg and Vienna was just published.

The book is called [European Insolvency Law – The Heidelberg-Luxembourg-Vienna Report](#). It is presented by the authors of the general report: B. Hess, P. Oberhammer and T. Pfeiffer, in cooperation with A. Piekenbrock and C. Seagon.

This book presents the results of the External Evaluation of Regulation No. 1346/2000/EC on Insolvency Proceedings (JUST/2011/JCIV/PR/0049/A4) which was commissioned by the EU-Commission in March 2012 as a basis for the pending reform of the European Insolvency Regulation. Most of it was prepared within a period of about half a year in which the editors were in constant contact with the EU-Commission and participated in the process that led to the presentation of the Proposal for a Regulation of the European Parliament and of the Council amending Council Regulation (EC) No 1346/2000 on insolvency proceedings (COM[2012] 744 final) dated 12 December 2012. Therefore, we believe that it is fair to say that both our initial approach to the relevant reform tools and issues and the findings in the course of the preparation of this study had a significant impact on the reform process which in turn of course also influenced the outcome of the study.

The book contains the document generally known as the Heidelberg-Luxembourg-Vienna Report on the reform of the European Insolvency Regulation and two other documents which served as a basis for this report, i. e. a

detailed systematic summary of the national reports based on extracts from the original text and a systematic compilation of the relevant case-law. Unfortunately, it would have gone far beyond the limits of this book to publish all national reports, although most of them were indeed worth publishing. However, these reports are available online at:
http://www.ipr.uniheidelberg.de/InsReg/Study_Annex_II.html.
