

We're refurbishing – please excuse our dust

Many of you will have noticed that much of the functionality on the site has temporarily disappeared. This is intentional, or at least as intentional as it could be. I will not bore you with details of servers and software, backends and frameworks, but suffice to say when all of this was upgraded, it broke the design of the site. So, I am now working on a new design which does work, but this will take me a little time. Until then, you should still see all of the posts on here, receive of all the updates, and be able to comment as appropriate.
