

Private International Law in an Era of Globalisation (paper)

A short working paper by Veerle Van Den Eeckhout on Private International Law in an Era of Globalisation has been published on SSRN. It is written in Dutch.

The English abstract reads as follows:

In times of (discussions about) globalisation, due attention must be given to the operation of rules of private international law. Examination of the ongoing developments in private international law itself and in private international law in its interaction with other disciplines from the perspective of “protection of weak parties” and “protection of planetary common goods” allows carrying out the analysis to which current developments invite.
