

Conference and Call: Challenge Accepted! Exploring Pathways to Civil Justice in Europe

19-20 November 2018, Civil Justice Conference in Rotterdam - Registration is open.

As announced earlier, the conference Challenge Accepted! Exploring Pathways to Civil Justice in Europe will take place at Erasmus School of Law on 19-20 November. You are warmly invited to join us. Find the info and a call for posters below. See also our project website www.euciviljustice.eu.

Access to civil justice is of paramount importance for enforcing rights of citizens and ensuring the rule of law. Key issues in the current efforts to improve access to justice at the EU and national levels regard the digitisation of justice and the use of artificial intelligence in dispute resolution, the privatisation of justice and the multiplication of alternative dispute resolution schemes, the increased possibility of self-representation, and the ever-increasing specialisation of court systems. Each of these trends greatly influences the emerging EU civil justice system but also raises a number of questions and doubts. On **19 and 20 November 2018**, policymakers, practitioners, academics from all over Europe will meet in Rotterdam to exchange and reflect on innovating pathways to civil Justice. Together, we will work on defining a sustainable framework for a 21st century EU civil justice system.

The flyer can be found [here](#). More information about the programme and registration is available [here](#).

Young researchers will also have the possibility to present and discuss their work during a **Poster Presentation** that will take place on Tuesday 20 November. Posters should focus on the topics of the conference, and show originality. We invite PhD researchers or young academics to present their research in a poster format. The three best posters will be awarded a prize during the closing cocktail.

More information on submitting a poster proposal can be found [here](#).

This conference is organised by Erasmus School of Law at Rotterdam University under the **ERC project 'Building EU Civil Justice'** (www.euciviljustice.eu).
