

Conference: “EU Harmonization of Private International Law and External Relations in Family and Succession Matters”

An international conference (held in English) is organised by **University Carlo Cattaneo (LIUC) on 9-10 March 2007**. It will present the results of the **Research Project "EU Harmonisation of Private International Law and External Relations in Family and Succession Matters"**, carried out by a group of European scholars and funded by the European Community under the Framework Programme for Judicial Cooperation in Civil Matters 2005.

The conference will deal with the increasing legislative activity of the EC in the field of private international law of family and successions, starting from Regulation (EC) No 2201/2003 (Brussels IIbis) to the recent Draft regulations and Green Papers adopted in 2005 and 2006, which embrace all P.I.L. aspects (jurisdiction, recognition and enforcement of judgments and applicable law).

Special attention will be devoted to the external dimension of EC action in the field:

Among the various issues raised by these acts, those concerning the relations with third States are particularly important and delicate, even because they shed light on the general characters of the emerging EC system of private international law. On the one hand, the issue of the external competence in this field is to be assessed, in the light of the ECJ's ruling in the Lugano Opinion of 7 February 2006. On the other hand, special attention will be given to the scope of these acts in so far as private relations connected with third countries are concerned.
