

Publication: Hill on Cross-Border Consumer Contracts

The very successful *Private International Law Series* by Oxford University Press adds yet another book to its impressive line-up with Jonathan Hill's **Cross-Border Consumer Contracts**. Here's the blurb:

Until relatively recently, almost all contracts were domestic: both the consumer and the supplier were from the same country and the situation involved no substantial foreign elements. Technological changes (in terms of international travel, means of communication and information technology) have meant that it is a more frequent occurrence for consumer contracts to involve a cross-border dimension.

This book explores the legal regimes which seek to deal with disputes which arise out of such cross-border consumer contracts. In terms of private international law, English law traditionally treated consumer contracts no differently from commercial contracts. However, at European level, jurisdictional and choice of law issues arising out of certain consumer contracts are subject to specific rules. The first part of the book focuses on these European developments and seeks to explain why the private litigation model for the resolution of disputes arising out of cross-border consumer contracts has failed to deal adequately with the problems generated by such contracts. Subsequent to these failures, alternative mechanisms for resolving contractual disputes have a particular significance in the consumer context. The second part of the book focuses on an evaluation of these alternative dispute resolution mechanisms, including online dispute resolution.

A table of contents can be found on the OUP website. ISBN: 978-0-19-927654-7. Price: £95. Available for £90.25 from the Conflict of Laws .net bookshop (powered

by Amazon) or for £95 from OUP.
