

Conference 'Civil Litigation in a Globalizing World'

On 17 and 18 June 2010, the Schools of Law of Erasmus University Rotterdam and the University of Maastricht (the Netherlands) will jointly organize a conference devoted to the subject "Civil Litigation in a Globalizing World; a Multidisciplinary Perspective".

Globalization of legal traffic and the inherent necessity of having to litigate in foreign courts or to enforce judgments in other countries considerably complicate civil proceedings and access to justice. This triggers the debate on the need for harmonization of civil procedure. In recent years, this debate has gained in importance because of new legislative and practical developments both at the European and the global level. These developments, amongst others the bringing about of the ALI/UNIDROIT Principles of Transnational Civil Procedure (2004) and some recent European Regulations introducing harmonized procedures, as well as problems encountered in the modernization of national civil procedure and in attempts for further harmonization, require deliberation.

Papers will be presented by renowned speakers from the perspectives of legal history, law and economics, policy, private international law and private law. European and global projects in the field of harmonization of civil procedure will be discussed by experts involved in those projects. Furthermore, national papers on specific developments, problems relating to or views on harmonization of civil procedure will be presented by experts from that jurisdiction.
