

Gaudemet-Tallon on Jurisdiction and Judgments

The much awaited fourth edition of Professor Gaudemet-Tallon's authoritative work on the European law of jurisdiction and judgments has just been published.

It is the leading French text on the topic. It only deals with civil and commercial matters, i.e. the Brussels I Regulation, the 1968 Brussels Convention, and the two Lugano Conventions.

The abstract and the table of contents can be found [here](#).
