

2011 Summer Seminar in Urbino

The Faculty of Law of the University of Urbino will host this summer its 53rd Seminar of European Law.

Many of the courses taught over the two weeks of the seminar (22 August-3 September) will deal with conflict issues. Although courses can be taught in English, this is a franco-italian seminar where courses are typically taught in French or Italian, with a translation in the other language. 

Speakers include leading academics, practitioners and judges.

The full program can be found [here](#).
