The book aims at a comprehensive coverage of the legal issues global business managers face. Focusing on the trade, licensing and investment life-cycle that many domestic -new to international- and multinational organizations experience, it provides the necessary understanding of legal issues concerning import-export, market-entry strategies, protecting and licensing intellectual property to learning the special challenges of international investment operations. The third edition is updated to the most significant developments in the field such as: the Lisbon Treaty; Regulation Rome I on the law applicable to contractual obligations and Regulation Rome II on the law applicable to non contractual obligations. In addition, it offers updated information on, inter alia, the Unidroit Principles on International Commercial Contracts (2010); the new UCP 600 (the Uniform Customs and Practice for Documentary Credits, i.e. a set of rules on the issuance and use of letters of credit utilised by bankers and commercial parties in more than 175 countries in trade finance); INCOTERMS 2010; payment modalities, contracts of carriage and new ICC rules for demand guarantees. A special emphasis is given to arbitration as the main tool for dispute resolution in the international business world.
