

Born on the European Private International Law of Book-Entry Securities

Michael Born has published a book on the European Private International Law of Book-Entry Securities (*Europäisches Kollisionsrecht des Effektengiros*, Tübingen, Mohr Siebeck 2013). The official summary reads as follows:

The law applicable to securities held in book-entry form in securities accounts is subject to a variety of European private international law rules. However, these provisions have not yet established a complete and consistent conflict of laws regime. Michael Born analyses the inconsistencies and gaps and also examines the options for eliminating the identified shortcomings.

Further information is available on the publisher's website (in German).
