

New U.S. Casebook on Conflict of Laws

Professor Laura Little (Temple University's Beasley School of Law) is the author of a new U.S. casebook on the Conflict of Laws published in the Aspen Casebook Series. 

Though relying essentially on U.S. sources, the casebook contains a number of comparative developments, in particular with European regulations.

About the Book

This progressive new casebook offers a contemporary, practical approach to a subject in which there are few right answers and plenty of opportunity for creativity, by connecting course content to law practice and offering modern cases and a problem pedagogy.

This title features:

- ***Well-balanced*** casebook presents the deep jurisprudential lessons imbedded in the conflict of laws subject matter while maintaining a clear presentation of doctrines relevant to current law practice
- ***Thematic approach*** puts conflicts of law in the context of actual issues confronted in law practice
- ***Problem pedagogy*** helps students apply various approaches and concepts. Extensive teaching manual outlines detailed answer to each problem.
- ***Clear, accessible writing*** without the “hide the ball” approach of many other books provides accessibility for a difficult course
- ***Innovative organization***, beginning with personal jurisdiction, follows the way issues arise in litigation and highlights the importance of forum selection. Modular presentation allows professors to adapt book to their own organization
- ***Contemporary cases*** and hypotheticals allow students to apply rules to current situations. Traditional cases are also included so as to maintain continuity with the venerable parts of the discipline

- **Full coverage of current topics** such as internet issues, same sex marriage, choice of law clauses, and class actions
- **International and comparative materials** cover global aspects of conflicts
- **PowerPoint slides, charts, and diagrams** available on line and in teaching manual provide appealing visual tools and add to the books' teachability
- **Emphasis on the Restatement (Second) of Conflicts**, which is now the predominant United States approach but is insufficiently covered in most other texts
