

Email Updates

Readers of this blog will know that our email updates (which allows you to subscribe to receive our new content directly into your inbox) had been broken for a while. The service we used, Feedburner, is no longer operational. We're happy to say that we've now created a new email update subscription service for Conflict of Laws .net. You can **subscribe here** (the link is also permanently in the menu to the right.)

The blog has been updated to the latest software available, and we hope everything is working as it should be. If you spot a problem or bug, just let us know.
