EUFam's Project: Case-Law Database Available!

The EUFam's Project's Consortium is glad to announce that the first version of the EUFam's case-law database, filled in the past months by all partners of the project, is now available for public consultation.

Currently, the database contains data concerning over 400 decisions applying the European Union Regulations on cross-border litigation in family matters, issued by the courts of Bulgaria, Croatia, Czech Republic, France, Germany, Greece, Italy, Slovakia, and Spain.

The consortium will keep the database up to date and publish new versions of the file in the upcoming months in the section 'Public Database' of the EUFam's website, in order to keep it up-to-date with the new cases that all partners will classify until December 2017, date of the end of the project.
