European Data Science Conference in Luxembourg, 7-8 November 2016

The European Association for Data Science (EuADS) will hold the first European Data Science Conference in Luxembourg on 7-8 November 2016. This interdisciplinary event is the inaugural conference of EuADS and aims to provide a setting for fostering communication among all stakeholders of Data Science in Europe. You may download the flyer of the conference here. Conference topics include, among others, the question of trust, transparency and provenance of data including where data come from and by which mechanisms trust in data might be achieved, as well as legal aspects of data science such as data protection, data privacy and data access. The conference will feature a symposium on "Legal dimensions of Data Science" with contributions by Burkhard Hess (MPI Luxembourg), Advocate General Pedro Cruz Villalón, Gerald Spindler (University of Göttingen), Mark D. Cole (University of Luxembourg) and Jan von Hein (University of Freiburg). The full programme is available here.
