

Fintech - What You Need to Know

Financial technology (Fintech) describes the way in which technological innovations transform financial services. Examples are bitcoin, PayPal or crowdfunding. These new phenomena not only raise important regulatory concerns, but also difficult conflict-of-laws questions. They will be addressed at a conference hosted by the British Institute of International and Comparative Law (BIICL) and organized by Eva Lein. It will take place today, 16 March 2016, from 5 to 7 PM, at Charles Clore House, Russell Square (London). The line-up of speakers includes Daniel Awrey (Oxford University), Tetsuo Morishita (Sophia University, Tokyo), and Matthias Lehmann (University of Bonn). Registration information and further details are available [here](#).
