

EJTN Webinar on Brussels Ibis

The European Judicial Training Network (EJTN) launches its pilot webinar programme with two events in April 2017 which are now open for Registration. One of the webinars has special appeal for those working within the field of private international law. The webinar on the **Wrongful removal or retention of the child - the Brussels Ibis Regulation will take place on Thursday, 20 April 2017 from 11:00 to 12:30 CET**. It will provide participants a better understanding of the current legal landscape of cross-border child abduction in the EU and will also look at other key issues and aspects of the topic.

- **Presenter:** *Carlos M. G. de Melo Marinho*, Court of Appeal Judge, Co-Founder and Former National Contact Point of the European Judicial Network in Civil and Commercial Matters, Senior Expert on European and International Judicial Cooperation and E-justice, Portugal.
- **Objectives:** To provide a better understanding of the current legal landscape of the cross-border child abduction in the EU; to analyse the Council Regulation (EC) No 2201/2003 of 27 November 2003 (Brussels Ibis) as a true icon of the achievements of the European Judicial Cooperation in Civil and Commercial Matters generated by the approval of the Amsterdam Treaty; to underline the role of this Regulation as a precursor EU law text in a fruitful and unfinished process of suppression of the *exequatur* in the proceedings with a cross-border connection developed with a view to create a Common Space of Justice marked by the existence of mutual trust and direct contacts between courts and by the free circulation of decisions; to reveal the swift new ways that envisage to grant the return of a child wrongfully removed or retained, entailed by an enforceable judgment given in a Member State, in cases connected with two or more countries.
- **Target audience:** Judges and prosecutors, preferably those involved in judicial cooperation in civil matters. Other legal professionals having professional contact with these questions are also welcome to join.
- **Registration** is open from March 31, 2017, until the end of the webinar. Register online [here](#).
