

Conference 'e' meets justice

On 2 and 3 May 2019, academics, IT and legal professionals will meet in Lisbon to discuss how to improve the collaboration between these communities in cross-border civil procedures. During this two-day conference, participants will reflect on issues that currently complicate the cooperation, but are also invited to share ideas on possible solutions. The goal of the conference is to identify the issues at stake, to learn of diverging approaches on citizen-centered cross-border justice and to find means to jointly deploy these approaches to bring justice closer to citizens.

The full program will be published shortly. You can pre-register [here](#).

The event is organised by the e-CODEX Plus project in cooperation with the 'Building EU Civil Justice' project run by the Erasmus School of Law of the Erasmus University in Rotterdam.
