Out now: Jayme/Hausmann (eds.), Internationales Privat- und Verfahrensrecht, 20th ed. 2020

For those of us who read German: Jayme and Hausmann have just published the 20th edition of their collection of PIL norms on German national, EU and international level. The book has grown considerably in volume over the decades and has particularly done so for its latest edition – from 1441 to now 1537 pages. An indispensable working tool – even in times of the internet.
