

# PAX Moot semi-finals and finals online on Friday 29 May

The Pax Moot went totally online this year (OK, no surprises there). The case concerns an employment dispute and environmental damage due to mining in an unidentified African country (see the paxmoot website). It raises various issues of jurisdiction, applicable law, freezing orders, parallel proceedings and company structures.

Over the past two days the preliminary rounds took place on an online platform hosted by the University of Antwerp. The **Universities of Cologne, Erasmus Rotterdam, Maastricht and Singapore Management University secured places in the semi-finals.**

Please join us on 29 May at the links below for the semi-finals and finals. All welcome!
