

Webinar on COVID-19 and international child abduction

A free webinar to hear experts of MK Family Law (Washington) and Grotius Chambers (The Hague) discuss pertinent issues relating to international child abduction in times of COVID-19.

Date: 8 April 2020

Time: 3 pm (CET Amsterdam)

COVID-19 has a significant impact on all aspects of our lives. Since the WHO declared the outbreak a pandemic, numerous States have implemented travel bans in an attempt to contain its spread. Moreover, States have closed courts and adjourned or even cancelled hearings.

Such restrictions cause direct impacts on transnational families. They may hinder, in particular, the prompt return of children in cases of international child abduction. Parents may encounter difficulties in commencing proceedings before the competent authorities, as well as complying with an agreement or return order.

Melissa Kucinski of MK Family Law and **Janaina Albuquerque Azevedo Gomes**, Expert in international Child Abduction law, will consider what the current situation may mean for parents. A particular focus will be the prompt return of children under the 1980 HCCH Child Abduction Convention.

Registrations are now open and the Eventbrite Registration Form can be found [here](#).

Registration is required to receive the webinar login credentials. For further information, please contact info@grotiuschambers.com.
