A Journal Issue of PPPM Dedicated to the EU Succession Regulation

Problemy Prawa Prywatnego Mi?dzynarodowego is the leading Polish periodical in the field of private international law. While most of its articles are in Polish, Vol. 26 (2020) offers a treat to those of us not fluent in Polish: a collection of articles, most in English (one in French, three in Polish), by leading European scholars, and dedicated to one topic: EU Regulation 650/12 of 4 July 2012, the Succession Regulation. The contributions emerge from a conference held in Katowice in 2019 (a conference report is included). What makes the treat particularly sweet: the whole issue, as well as the individual articles, are available online!
