INCLUDE: child participation in international child abduction cases conference 24 and 25 June

The INCLUDE project is nearing it end. The project, co-funded by the European Commission, departed from the finding in previous research that children involved in child abduction cases feel frustrated by the lack of clear information and involvement. The teams discussed with youngsters what they think the needs of children are in child abduction cases. These workshops took place in Hungary and Cyprus and led to a Practice Guide aimed at professionals dealing with child abduction proceedings or the enforcement of return orders. The national reports of Hungary and Cyprus and the Literature Study are available.

The results and the Practice Guide will be set out and discussed at the final conference (on Zoom) on 24 June (afternoon) and 25 June (morning). Registration is free: see the site of Missing Children Europe.
