

International Doctorate Programme “Business and Human Rights: Governance Challenges in a Complex World”

Funded by Elite Network of Bavaria the International Doctorate Programme „Business and Human Rights: Governance Challenges in a Complex World“ (IDP B&HR_Governance) establishes an inter- and transdisciplinary research forum for excellent doctoral projects addressing practically relevant problems and theoretically grounded questions in the field of business and human rights. Research in the IDP B&HR_Governance will focus on four distinct areas:

- Global value chains and transnational economic governance
- Migration and changing labour relations
- Digital transformation
- Environmental sustainability

The IDP’s research profile builds on law and management as the core disciplines of B&HR complemented by sociology, political, and information sciences. Close cooperation with partners from businesses, civil society, and political actors will enable the doctoral researchers to develop their projects in a broader context to ensure practical relevance. The IDP’s curriculum, lasting for eight semesters, aims at contributing to the professional development of independent and critical researchers through a variety of courses, research retreats, colloquia, and conferences as well as the possibility of practical projects.

The IDP B&HR_Governance will include up to twenty doctoral researchers selected through a competitive process and sixteen principal investigators from Friedrich-Alexander-University Erlangen-Nürnberg (FAU), the University of Bayreuth and Julius-Maximilians-University Würzburg (JMU). The IDP involves law, management, sociology, political sciences and information systems.

The IDP B&HR_Governance will offer a comprehensive and innovative curriculum for the doctoral researchers. Its activities will commence on 1 November 2021.

The Acting Spokesperson of the IDP B&HR_Governance is Professor Markus Krajewski.

The IDP includes the following professors:
