

Out now: Holger Jacobs, Das Haager Anerkennungs- und Vollstreckungsübereinkommen vom 2. Juli 2019, Mohr Siebeck, Tübingen 2021, pp. 432

An important publication on the HCCH 2019 Judgments Convention has come out: Holger Jacob's PhD thesis, "Das Haager Anerkennungs- und Vollstreckungsübereinkommen vom 2. Juli 2019", supervised by our esteemed colleague Peter Huber, University of Mainz, Germany. The book is certainly the most comprehensive treatise on the subject matter in German language at this moment, and it is highly recommended: thorough analysis and precision invite anyone interested in the topic to study concepts and details of the new core element of the "Hague system" for judicial cooperation in civil matters.
