

Just released: EFFORTS Report on Practices in Comparative and Cross-Border Perspective

On 19 July 2022, a new Report on practices in Comparative and Cross-Border Perspective was posted on the website of **EFFORTS (Towards more Effective enFORcement of claimS in civil and commercial matters within the EU)**, an EU-funded Project conducted by the University of Milan (coord.), the Max Planck Institute Luxembourg for Procedural Law, the University of Heidelberg, the Free University of Brussels, the University of Zagreb, and the University of Vilnius.

The Report was authored by Marco Buzzoni and Carlos Santaló Goris (both Max Planck Institute Luxembourg for Procedural Law).

By building upon the deliverables previously published by the Project Partners (available [here](#)), the Report casts light on the implementation of five EU Regulations on cross-border enforcement of titles (namely: the Brussels I-bis, EEO, EPO, ESCP, and EAPO Regulations) in the seven EU Member States covered by the Project (Belgium, Croatia, France, Germany, Italy, Lithuania, and Luxembourg). Against this background, the Report notably provides an in-depth analysis of national legislation and case law in an effort to identify general trends and outstanding issues regarding the cross-border recovery of claims within the European Union.

Regular updates on the EFFORTS Project are available via the Project's website, as well as LinkedIn and Facebook pages.
