New book: Legal Challenges of China's One Belt One Road Initative: Private International Law Considerations

A new book *Legal Challenges of China's One Belt One Road Initative: Private International Law Considerations* edited by Dr Poomintr Sooksripaisarnkit and Dr Sai Ramani Garimella has now been released by Routledge.

This book is a sequel to the book *China's One Belt One Road Initiative and Private International Law* which was published by Routledge in 2018.

Here is the publisher's blurb:

> *"This book covers new legal developments of the One Belt One Road (OBOR) project and assesses how litigation may be organised to enforce and compensate for defaults for its related initiatives.*

This book is structured into five themes, consisting of essays which assess the decade of BRI's existence in the context of international economic engagement and the rule of law, private international law, dispute resolution mechanisms – including mediation and judgment mobility. The chapters in the book strike new ground and cover recent developments such as the establishment of China's International Commercial Court, engagements in multiple Belt and Road Initiative (BRI) construction and investment projects.

The book will be of interest to researchers, academics, policymakers and students interested in private international law issues pertaining to the OBOR routes as well as private international law in general, Asian studies and the politics of international trade".

The table of contents and contributors include:

Poomintr Sooksripaisarnkit and Sai Ramani Garimella: Current Developments of the One Belt One Road Project and the Emerging Private

International Law Issues
