

Perspectives contentieuses internationales (PCI), Volume 5

The following announcement was kindly shared with us by Fabienne Jault-Seseke

The 5th issue of Perspectives contentieuses internationales is online.

It is a special issue devoted to a dossier entitled “The Exploitation of Natural Resources in the Face of the Energy Transition,” prepared under the direction of Rebecca Legendre and Denys-Sacha Robin. It provides an opportunity to reflect on the transformations that the extractive sector as a whole is facing as a result of sustainable development policies, as well as on the multiple disputes likely to arise from the difficult reconciliation of competing considerations.

The table of contents is the following :

Introductory Remarks,
by Rebecca Legendre and Denys-Sacha Robin

Les sources de la transition énergétique : quels défis pour le juge ? (The Sources of the Energy Transition: What Challenges for the Judge?)
by Kamalia Mehtiyeva

La souveraineté permanente des Etats sur leurs ressources naturelles . l'épreuve de la transition énergétique :un renouveau teinté d'incertitudes normatives et contentieuses,(Permanent Sovereignty of States over Natural Resources in the Face of the Energy Transition: A Renewal Marked by Normative and Contentious Uncertainties)
by Marie Lemey

Conflit de logiques au forum mondial ? L'arbitre comme juge global des

ressources naturelles (Conflict of Rationales at the Global Forum? The Arbitrator as a Global Judge of Natural Resources),
by Lilian Larribère

Le droit et le contentieux de l'OMC en faveur de l'exploitation des communs planétaires : réflexions sur une incohérence structurelle (WTO Law and Litigation in Support of the Exploitation of Global Commons: Reflections on a Structural Inconsistency),
by Joseph Reeves

La juridictionnalisation des relations entre les entreprises minières et les communautés locales (The Jurisdictionalization of Relations between Mining Companies and Local Communities),
by Sandrine Clavel

La protection des forêts tropicales pour le climat et l'encadrement de ses effets pervers, des négociations au contentieux (The Protection of Tropical Forests for Climate Purposes and the Regulation of Its Perverse Effects, from Negotiations to Litigation),
by Julien Dellaux

L'exemple de l'AIFM : un modèle de gouvernance multilatérale dans l'hypothèse d'une exploitation des grands fonds marins ? (The Example of the ISA: A Model of Multilateral Governance in the Event of Deep Seabed Exploitation?)
by Niki Aloupi

Directive vigilance et droit international privé : vers une exploitation des ressources naturelles plus responsable ? (The Corporate Sustainability Due Diligence Directive and Private International Law: Towards More Responsible Exploitation of Natural Resources?)
by Marie Nioche

La responsabilité internationale des Etats dans le cadre de l'exploitation des ressources naturelles (State International Responsibility in the Context of Natural Resource Exploitation),
by Sarah Cassela
